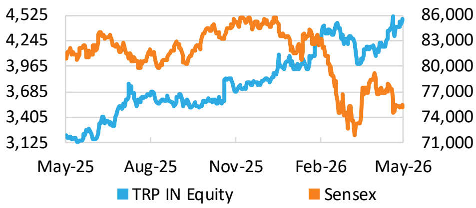
PRICE PERFORMANCE



Click here to listen to the audio summary

Semaglutide shines; JB strengthens story

Torrent Pharma's (TRP) Q4FY26 revenue missed our estimates by 3% while EBITDA/PAT beat estimates by 4%/1%. Its organic business grew 16% with organic EBITDA margin at 32.7%. India stayed healthy with TRP having a 38% market share in generic Semaglutide (Rank 1).

TRP's Semaglutide execution is likely to be strong in India as it expects ~INR2–2.5bn revenue in first year. The JB integration synergy benefits are likely to be earlier than estimated and TRP remains confident of ~INR4.5bn synergy guidance with more benefits from revenue synergy. Semaglutide approval in Brazil remains an additional growth lever. Retain 'BUY' with an SotP-based TP of INR5,170, valuing it at 27x FY28E EV/EBITDA. At CMP, the stock trades at 49x FY28E EPS.

Base business remains robust; acquisition costs affect PAT

TRP's consolidated revenue surged 42% YoY to INR42bn, a 3% miss against our estimates. Gross margin was 75.8% against our estimate of 74.7%. EBITDA surged 41% YoY to INR13.5bn, beating our estimate by 4%. EBITDA margin was 32.3% versus our estimate of 30.2%. R&D spend expanded 22% YoY while opex soared 55% YoY. Adjusted PAT dipped 15% YoY to INR4.5bn (in-line with our estimate). PAT was hurt due to higher depreciation/interest cost post JB acquisition. TRP's base business revenue expanded 16%, EBITDA rose 16% while EBITDA margins were 32.7%.

Solid execution in Semaglutide, JB synergy delivery can be higher

TRP's India business stayed robust with base business growing 15% YoY versus IPM growing 10%. We expect strong momentum to continue, supported by its leadership in generic Semaglutide (~38% market share; 28% injectable and 100% oral), with TRP guiding for ~INR2–2.5bn revenue in year 1. Moreover, growth in Curatio portfolio, first-to-market launch of Resmetirom and improving MR productivity shall support mid-teens organic growth in FY27E. Brazil business grew 12% YoY in CC terms while TRP awaits local Semaglutide approval and expects to be among the first five players in gOzempic. TRP expects Brazil to grow 10–15% in FY27E, driven by new launches and market expansion. Meanwhile, US and Germany outlook stays subdued (single-digit growth) amid fewer launches and supply disruptions.

JB merger in final stages; retain 'BUY'

We are building in revenue/EBITDA CAGR of 14%/28% over FY26–28E driven by better mix/GLP-1 opportunities and JB Pharma synergies. With JB Pharma merger in final stages, TRP retained its synergy guidance (INR4.5bn over three years). It said the EBITDA performance from JB acquisition is tracking ahead of expectation. Retain '**BUY**' with an SotP based TP of INR5,170, valuing it at 27x FY28E EV/EBITDA.

Q4FY26 conference call: Key takeaways

Financials and guidance

- EBITDA synergy from JB's acquisition is tracking ahead of expectations with some cost rationalisation benefits realised earlier than anticipated.
- TRP reiterated synergy guidance of up to INR4.5n by Year 3 with ~20% anticipated in FY27E.
- **India business guidance:** To potentially deliver mid-teens organic growth in FY27E, subject to absence of external macroeconomic or geopolitical demand shocks. Semaglutide, Curatio, chronic therapies and first-to-market launches are key growth levers for FY27E in India.
- **Brazil business guidance:** A 10–15% growth over FY27E, supported by new launches and market expansion.
- **Germany business guidance:** Low single-digit constant currency growth (<5%) in Germany for FY27.
- **US business guidance:** Single-digit growth over next couple of years before major product launches scale up. Expect launches to be in single digit over the next nine–10 months.
- **R&D guidance:** Likely to increase ~50bp in FY27E, primarily towards India and the US businesses within existing therapy areas.
- TRP is evaluating multiple global biosimilar partnerships and expects initial tender participation to begin from June-July 2026.
- Higher depreciation/amortisation charges related to acquisition accounting (effective January 21, 2026) should sustain through FY27E.
- **Consolidated EBITDA margin:** 32.3% (including impact of JB Pharma acquisition from January 21, 2026).
- **Ex-JB Pharma, Q4FY26** base business revenue grew 16%; EBITDA margin: 32.7%. FY26 revenue/EBITDA grew 15%/15% while margins remained steady at 32.7%.
- Exceptional items in Q4FY26 included INR460mn related to TRP and INR190mn pertaining to JB Pharma.
- **Net debt-to-EBITDA post JB Pharma acquisition:** 2.3x.

JB acquisition and synergies

- Merger is in the final stage with only the NCLT final hearing pending, which is likely next month.
- Revenue synergy confidence has improved; meaningful revenue synergies are unlikely in FY27 as implementation will take time.
- Business discontinuation undertaken in Q4 will continue through FY27 with no further discontinuations planned at present.
- **Synergy realisation:** ~20% in Year 1, ~60%–80% cumulative by Year 2 and the remaining ~20% in Year 3.

India business

- TRP is conducting Phase III trials for Resmetirom (NASH therapy), approved by USFDA for MASH.
- This is likely to be a meaningful opportunity with potential launch post patent expiry over next 12–18 months, subject to successful trials and competition landscape.
- MR execution remains healthy with TRP's MR base at ~7,100 (ex-JB). No major MR addition requirement post-integration of JB Pharma sales force.
- TRP currently has ~38% share among generic Semaglutide players in India, aided by early mover advantage and availability across injectable and oral formats.
- Outpaced the market with base business growing 15% versus IPM growth of 10%.
- Currently has ~38% share among generic players, including 28% share in injectables and 100% share in oral Semaglutide.
- **Q4FY26 India base business growth breakdown:** Volume: 3.8%/Price: 6.7%/NI: 3.4%.

Semaglutide

- TRP launch exceeded internal expectations; could potentially generate INR2–2.5bn revenue in the first year versus ~INR700mn–750mn peak first year contribution from earlier major launches such as Sitagliptin.
- TRP expects oral Semaglutide market to reach ~20–30% of the injectable market size.
- Injectable Semaglutide is sourced through a partner while oral Semaglutide is developed and manufactured in-house (API outsourced).
- If India opportunity scales up meaningfully, may consider partial in-house manufacturing for injectables as well.
- Oral Semaglutide price was reduced to INR109/tablet from INR149 earlier, largely due to lower API procurement costs.
- April Semaglutide sales were ~INR170mn, comprising INR110m from injectables and INR60mn from oral formulations.
- Brazil Semaglutide market is at ~USD1bn with injectables contributing ~75% and oral formulations ~25%. Ozempic demand is declining rapidly while Wegovy is reporting strong traction.
- No generic launches approved in Brazil yet although TRP expects to be among the first five players in Ozempic. TRP is also working towards Wegovy filings.
- Earlier, Ozempic was widely used for weight-loss indications, but stricter ANVISA regulations are now driving a shift towards Wegovy.
- In smaller international markets, TRP is believed to be ahead of peers in Semaglutide filings. It has filed Ozempic in ~four–five markets and expects to be part of the first wave of launches in several geographies.
- Gross margins for Semaglutide remain lower initially due to elevated API costs and launch-related spends though margins are likely to improve gradually with scale and lower API prices.
- Evaluating Semaglutide vial formats though not a near-term priority given stronger opportunities in pens and oral formats.

US

- JB Pharma's international CDMO business was affected by a change in control and ongoing geopolitical issues in the Middle East.
- US business was profitable before R&D expenses with focus now on improving overall profitability.
- No sole 180-day exclusivity opportunities currently, though it has select day-one filings.

Germany

- Business was affected by third-party supply disruptions.
- Launched first biosimilar in Germany and plans to participate in tenders in the coming months.
- Recent regulatory changes making biosimilars substitutable and tender-based improve appeal of opportunity, making the market structurally similar to generics over time.

Brazil

- Growth was aided by new launches (rosuvastatin and azithromycin) and price increases.
- Remains an attractive branded generics market with healthy margins; customs duty not seen as a major hurdle too. Local manufacturers pay duty on APIs while imported finished products attract duty on formulations.
- New launches gain traction, particularly rosuvastatin + ezetimibe, where TRP currently has ~8.5% market share in market trending towards BRL850mn, making it one of TRP's largest markets in the region.
- Q4FY26 Brazil growth was driven by NI with price growth of ~5% and NI contributing ~7% while volumes remained broadly flat. NI remains the key growth driver.
- Focus remains on calibrated product launches in Brazil, supported by its existing commercial infrastructure and launch teams.
- TRP has 58 molecules awaiting ANVISA approval.

TORRENT PHARMACEUTICALS

Company Description

Torrent Pharmaceuticals (TRP) is one of the few companies in the pharma space with a focus on cash flows and thus the domestic market remains its first choice. In pursuit of growth in domestic market, company has performed two bold acquisitions over the past five years — Elder (acquired at 5x sales) and leveraged buyout of Unichem (acquired at 4x sales). TRP was very successful in accelerating growth in Elder's portfolio post acquisition and it is yet to see a similar ramp-up in Unichem's portfolio. Other focus markets include Brazil, Germany and the US, where it has recently started focusing on complex generics.

Investment Theme

TRP continues to focus on branded business mix from India and Brazil, which bodes well for sustainable growth. Domestic business' field force expansion and trade generics uptick should provide a fillip. The launches in US coupled with incremental tender wins in Germany bode well. The GLP-1 opportunity is a key monitorable.

Key Risks

- Lack of recovery in volume growth
- USFDA related regulatory risks
- Delay in product launches in Brazil, Germany and US could restrict growth in these key geographies
- Currency risk

Analyst Certification:

The analyst for this report certifies that all of the views expressed in this report accurately reflect his or her personal views about the subject company or companies and its or their securities, and no part of his or her compensation was, is or will be, directly or indirectly related to specific recommendations or views expressed in this report.

Additional Disclaimers

Disclaimer for U.S. Persons

This research report is a product of NWML, which is the employer of the research analyst(s) who has prepared the research report. The research analyst(s) preparing the research report is/are resident outside the United States (U.S.) and are not associated persons of any U.S. regulated broker-dealer and therefore the analyst(s) is/are not subject to supervision by a U.S. broker-dealer, and is/are not required to satisfy the regulatory licensing requirements of FINRA or required to otherwise comply with U.S. rules or regulations regarding, among other things, communications with a subject company, public appearances and trading securities held by a research analyst account.

This report is intended for distribution by NWML only to "Major Institutional Investors" as defined by Rule 15a-6(b)(4) of the U.S. Securities and Exchange Act, 1934 (the Exchange Act) and interpretations thereof by U.S. Securities and Exchange Commission (SEC) in reliance on Rule 15a 6(a)(2). If the recipient of this report is not a Major Institutional Investor as specified above, then it should not act upon this report and return the same to the sender. Further, this report may not be copied, duplicated and/or transmitted onward to any U.S. person, which is not the Major Institutional Investor.

In reliance on the exemption from registration provided by Rule 15a-6 of the Exchange Act and interpretations thereof by the SEC in order to conduct certain business with Major Institutional Investors, NWML has entered into an agreement with a U.S. registered broker-dealer, Nuvama Financial Services Inc. (formerly Edelweiss Financial Services Inc.) ("NFSI"). Transactions in securities discussed in this research report should be effected through NFSI.

Disclaimer for U.K. Persons

The contents of this research report have not been approved by an authorised person within the meaning of the Financial Services and Markets Act 2000 ("FSMA").

In the United Kingdom, this research report is being distributed only to and is directed only at (a) persons who have professional experience in matters relating to investments falling within Article 19(5) of the FSMA (Financial Promotion) Order 2005 (the “Order”); (b) persons falling within Article 49(2)(a) to (d) of the Order (including high net worth companies and unincorporated associations); and (c) any other persons to whom it may otherwise lawfully be communicated (all such persons together being referred to as “relevant persons”).

This research report must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which this research report relates is available only to relevant persons and will be engaged in only with relevant persons. Any person who is not a relevant person should not act or rely on this research report or any of its contents. This research report must not be distributed, published, reproduced or disclosed (in whole or in part) by recipients to any other person.

Disclaimer for Canadian Persons

This research report is a product of NWML, which is the employer of the research analysts who have prepared the research report. The research analysts preparing the research report are resident outside the Canada and are not associated persons of any Canadian registered adviser and/or dealer and, therefore, the analysts are not subject to supervision by a Canadian registered adviser and/or dealer, and are not required to satisfy the regulatory licensing requirements of the Ontario Securities Commission, other Canadian provincial securities regulators, the Investment Industry Regulatory Organization of Canada and are not required to otherwise comply with Canadian rules or regulations regarding, among other things, the research analysts' business or relationship with a subject company or trading of securities by a research analyst.

This report is intended for distribution by NWML only to "Permitted Clients" (as defined in National Instrument 31-103 ("NI 31-103")) who are resident in the Province of Ontario, Canada (an "Ontario Permitted Client"). If the recipient of this report is not an Ontario Permitted Client, as specified above, then the recipient should not act upon this report and should return the report to the sender. Further, this report may not be copied, duplicated and/or transmitted onward to any Canadian person.

NWML is relying on an exemption from the adviser and/or dealer registration requirements under NI 31-103 available to certain international advisers and/or dealers. Please be advised that (i) NWML is not registered in the Province of Ontario to trade in securities nor is it registered in the Province of Ontario to provide advice with respect to securities; (ii) NWML's head office or principal place of business is located in India; (iii) all or substantially all of NWML's assets may be situated outside of Canada; (iv) there may be difficulty enforcing legal rights against NWML because of the above; and (v) the name and address of the NWML's agent for service of process in the Province of Ontario is: Bamac Services Inc., 181 Bay Street, Suite 2100, Toronto, Ontario M5J 2T3 Canada.

Disclaimer for Singapore Persons

In Singapore, this report is being distributed by Nuvama Investment Advisors Private Limited (NIAPL) (Previously Edelweiss Investment Advisors Private Limited ("EIAPL")) (Co. Reg. No. 201016306H) which is a holder of a capital markets services license and an exempt financial adviser in Singapore and (ii) solely to persons who qualify as "institutional investors" or "accredited investors" as defined in section 4A(1) of the Securities and Futures Act, Chapter 289 of Singapore ("the SFA"). Pursuant to regulations 33, 34, 35 and 36 of the Financial Advisers Regulations ("FAR"), sections 25, 27 and 36 of the Financial Advisers Act, Chapter 110 of Singapore shall not apply to NIAPL when providing any financial advisory services to an accredited investor (as defined in regulation 36 of the FAR. Persons in Singapore should contact NIAPL in respect of any matter arising from, or in connection with this publication/communication. This report is not suitable for private investors.
