ITC delivered 4QFY26 revenues below our/ consensus estimates but a slight beat on earnings, in a quarter marked by implementation of a sharp hike in cigarette taxation followed by significant price hikes. Standalone net revenue declined 7% YoY, largely due to the excise duty on cigarettes sharply increasing by 4.5x YoY (despite price hikes of c.25%+). EBITDA/ adj. PAT grew 7%/ 5% YoY. **Cigarettes (c.85% of overall EBIT)** posted sales growth of 32% YoY (pricing-led with est. volume growth of 5% YoY). Our checks indicate further price hikes of c.15% are likely, but distributor-level volumes esp. in the Kings' (84mm) segment have witnessed a sharp decline over the past month. **FMCG (c.30% of gross sales, c.8% of EBIT)** delivered strong growth of 15% YoY with strength across key portfolios of atta, biscuits, noodles, snacks and premium personal wash. **Agri business** revenues (c.14% of sales) declined 16% YoY (on a high base of +18%), with exports impacted due to the West Asia conflict. **Paperboards'** sales (c.10% of sales) inched up 2% YoY, with better growth in specialty papers.

4Q26 operating margins expanded 530bps YoY/ 540bps QoQ to 40.0%, aided by improvements in FMCG (EBITDA margin +170bps YoY at 10.6%) and paper (EBIT margin +175bps YoY to 11%), while agri business EBIT margin declined 115bps to 5.8%. Improvement in paper segment margins was driven by improvement in wood availability, leading to moderation in wood prices in 4Q. Cigarette margins were an interplay of 1) easing leaf tobacco procurement costs, 2) sharp increase in excise duty from c.55-60% to c.80% effective February-2026, and 3) subsequent price hikes.

Views: While cigarette volume growth has been stable over FY26 (c.+6% YoY), the vastly-altered taxation structure (see our report [here](#)) has thus far prompted meaningful product price hikes (c.25%). While checks indicate further hikes are likely (to negate the margin impact), the fallout of these hikes is key: distributor-level volumes esp. in the Kings' segment have likely seen a sharp decline over April-May, with the pressure expected to persist near-term. We expect moderate volume decline in FY27, and believe the taxation changes might give a fillip to the illegal market as well. More positively, FMCG business growth is now looking up; ITC's strong positions in atta, biscuits, noodles, snacks should help it leverage a gradual demand recovery manifesting in FY27E (sales +8% YoY); margins should also likely be more resilient vs other players (in the current scenario of rising input costs) aided by pricing and in view of ITC's premium product portfolio. Paper business would be boosted by the accretion of Century Pulp & Paper in early-FY27E, and margins can also see some relief from moderation in wood costs (called out in the 4Q26 commentary). Agri business revenues should be driven by value-added products and strong export sales of leaf tobacco, spices, coffee, paddy (FY27E sales +8% YoY).

Valuation: We raise our FY27E-FY28E EPS estimates by 3-4% to factor in the 4Q beat, and build FY26-FY28E revenue/PAT CAGR of 7%/ 4%. We maintain HOLD rating; we roll over valuation to March-2028E (from December-2027E) and value the stock at P/E of 19x (in-line with its current 1-year forward multiple) to arrive at a revised TP of Rs 340 (vs Rs 355 earlier). With significant upheaval in the core cigarettes business – on volumes, pricing, realizations and margins – expected to persist near-term at least, we remain on the sidelines here.

Unprecedented tax hikes on Cigarette: Cigarette revenue was up 32% YoY and 26% QoQ. EBIT dropped by -1134bps YoY (*on gross sales*) but rose 2968bps YoY (*on net sales*) due to significant changes in tax structure. The segment saw a strong performance till Jan'26 driven by strategic portfolio & market interventions. Company adopted strategic approach to mitigate impact by - staggered pricing actions to minimize risk of significant volume shift to illicit trade, and re-structured product portfolio leveraging diverse range of powerful trademarks.

Differentiated variants and premium segments continue to perform well.

- Gold Flake, Classic, Flake Spl, Scissors, Silk Cut Red reinforced the market standing and fortified the portfolio.
- Classic Connect, American Club Clove Mint, Gold Flake Indie Mint in innovations.

Robust performance continued in FMCG: FMCG revenue grew 15% YoY. EBITDA margins stood at 10.6%. Sharpe surge in key commodity prices (viz. edible oil, soap noodles, packaging inputs, etc.) towards end-4Q26. Segmental EBIT at 8.3% an expansion of 198bps YoY, proactive measured like pricing actions, cost management, supply chain agility and focused market interventions helped margins.

- Digital first & Organic folio encompassing 'Yoga Bar', 'Mother Sparsh', 'Prasuma & Meatigo' and '24 Mantra brands' were up 60% YoY, with ARR of Rs 13.5bn
- 'Aashirvaad' posted strong growth and reinforced its leadership position across segments and geographies. Value-added variants and staples adjacencies now contribute over 16% of Aashirvaad Staples portfolio
- 'Sunfeast' Biscuits & Cake recorded strong growth in FY26. New introduction include – 'Sunfeast Mom's Magic Shines'. Dark Fantasy is now at No.1 spot in the Modern Trade channel for premium cookie segment.
- 'YiPPee!' sustained No.2 spot with strong growth in 4Q26. New launches - 'Yaki Udon', 'Gochujang' and 'Tom Yum' variants.
- 'Bingo!' Snacks delivered resilient performance in FY26 and strengthened its product portfolio with the launch of different variants of snacks/namkeens.
- In the Dairy, 'Aashirvaad Svasti' portfolio sustained high growth. 'Mangaldeep' Agarbattis and Dhoop sustained robust growth during the year.
- Personal Care Products business recorded strong growth, led by 'Fiana'.

Agri-business impacted in 4Q: Revenue declined by 16% YoY. EBIT margin stood at 5.8% (contraction of 115bps YoY). Segment saw sharp impact of geopolitical disruptions, timing difference, and high base.

Paperboards, Paper & Packaging: Revenue grew by 2% YoY. Partial relief to industry due to import reduction on account of the imposition of Minimum Import Price (MIP) on Virgin Multi-layer Paperboard. EBIT grew 21% YoY (margin expansion of 176bps YoY to 11.0%). Wood prices witnessed moderation amidst improved availability. Packaging & printing business witnessed another robust growth driven by Cartons.
